# Foreword

Once again it is that special time of year when the faculty and students of Briscoe Junior High School participate in another graduation.

The past three years at Briscoe have given us equal opportunity to increase our desire to obtain knowledge. We have broadened our outlook of world progress through scholastics. With warm friendships and participation in school activities we have discovered the true values of social relationships.

This is only a stepping stone to what lies ahead, but we are prepared. We have acquired the cornerstone of a firm foundation here at Briscoe for all future vocations and undertakings. High school presents an even greater challenge, and we must rely upon our judgement to pursue the advantages at our disposal.

As we, the Senior Class, receive our diplomas, it will be with mixed emotions that we bid fond farewell to Briscoe Junior High School.

Editor-in-Chief,  
Diane Derby, 9-4

# *Dedication*

The graduating class of 1968 sincerely dedicates this publication of the "Briscoe Briefs" to Miss Lois B. Larcom, who is retiring this year.

Miss Larcom graduated from Wheaton College with Phi Beta Kappa honors. She also studied at Middlebury College. Before coming to Beverly, her native city, she taught in central Massachusetts and Rhode Island. During her years at Briscoe, Miss Larcom has instructed classes in Latin, French, and Introductory Language.

Miss Larcom has many captivating pastimes. She enjoys mountain climbing and gardening. At her summer home in Vermont, Miss Larcom is able to take full advantage of her love of the out-of-doors. Another interest and activity is music. Miss Larcom has a special talent for tray painting, furniture stenciling, and hooking or braiding rugs. With her flair for the creative, there should be few idle moments in the leisure time to which she looks forward.

Miss Larcom will be leaving with us in June. We wish to thank her through this dedication and express our deepest gratitude and respect for her gentleness and understanding these past years.

"Sport transcends politics. It is an international phenomenon like science or music." Although it seems futuristic, we must remember that this statement by Avery Brundage pertains to all sport on every level, including ours.

During 1968, an Olympic year, sport is especially eminent. It seems to be the only link between the nations of our troubled world. True, the part we play is a minutely one, but it is a part we play toward achieving a united world.
